🎯 Key Insights & Recommendations

🎬

Video Ads Outperform Image Ads by 2.9x

Statistical analysis ($p < 0.001$, Cohen's $d = 0.70$) confirms video ads generate significantly higher ROAS. Recommend shifting 40% of image ad budget to video formats.

👥

30-34 Age Group Drives 51% of Conversions

This segment delivers the highest conversion volume at the lowest CPA ($4.09). Increase bid adjustments by 25% for this demographic.

📈

Overall ROAS of 3.06x Exceeds Industry Benchmark

Campaign performance is strong with ROAS well above the 2.0x industry standard. Continue current strategy while optimizing underperforming segments.

⚠️

45-49 Age Group Shows Highest CPA

This segment has CPA of $14.04, 3.4x higher than the 30-34 group. Consider reducing bids or excluding from low-performing campaigns.
